Here at MJ Wilson Group Cardiff, we have a team of experienced service engineers that are able to provide onsite instrumentation/engineering support, be it short or long term. We are able to perform onsite and in house calibration on a wide range of instruments, all of which is traceable back to national standards.

Our extensive network of resources enables us to carry out calibration on all of your equipment whether it is process critical with fine tolerances or low priority for information only.

M.J.Wilson Cardiff offers on-site support and services and help to maintain peak operating performance and maximise the ongoing value of your control system. Calibration services of installed solutions, measurement and control devices.

We offer calibration services for a broad range equipment and instruments:

- Pressure
- Temperature
- Flow
- Level
- Electrical
- Mechanical
- Gas Detection
- pH Level
- Moisture/Humidity
- Process Calibration
- Weight
- Measurement
